Claflin Dry Goods Concern Fails; Liabilities \$35,000,000

Thirty Retail Stores in United States Are Involved

NEW YORK, June 25 .- The vast Claffin dry goods enterprises collapsed today with the appointment of receivers in New York for the wholesale house of the H. B. Claffin Co. and the announcement that nearly thirty retail stores throughout the country would be closed. The liabilities of the firm are estimated at \$35,000,000; the assets at more than \$40,000,000. Overextended credits caused the failure, the largest of its kind in the history of the country.

Though affiliated with the bankrupt firm, through stock control, the United Dry Goods Companies and the As-sociated Merchants' Company, tomether with their stores in New York and elsewhere, were not involved in the failure. It was stated their finan-

For the retail stores in the Claffin string ancillary receivers will be named, and they will remain closed pending an adjustment of the parent company's tangled affairs.

BANKERS IGNORANT.

So far as is known, bankers and dealers in commercial paper, other than those having direct connection with the Claffin company, were in absolute ignorance of the company's financial embarrassment up to a day or two ago.

The last annual report of the company as of December 31, 1913, showed a surplus over and above all liabilities of \$1,688,730, a greater part of which constituted a reserve for the common stock after payments of dividends on the first and second preferred shares Since its origin in 1890 total dividend President Wilson Says Great disbursements of \$13,230,566 have

Altogether there are 90,000 shares of the Claffin Company outstanding, divided into 26,603 first preferred 5 per cent cumulative stock, 25,706 sec ond preferred 6 per cent cumulative and 38,291 common shares, which have never paid less than 6 per cent and in 1892-93 as much as 16 per cent.

STOCK SCATTERED. Claffin company shares were not listed on the stock exchange, but were a pop ular investment with many conservative interests. It is believed that the several classes of stock are widely scattered throughout the country.

The failed firm grew to its great posistore established by Mr. Claffin's grandtury ago. It was there that Horace Bingham ("laftin, his father, was born in 1811. The latter in 1831 succeeded to the elder Claffin's business and later opened a

Anonymous Notes Include Lawyer in Shorb **Divorce Case**

Mysterious Missives Appear in Almost Every Mail Delivery

AN FRANCISCO, June 25.—A dozen black hand letters conveying threats of death and mysterious and veiled accusations, have entered sinisterly into the divorce action of Adelaine D. Shorb and her husband, D. McM. Shorb, the wealthy lumber king and mining man, which is engaging the attention of Judge Van Nostrand's court. The case was continued yesterday until July 7.

Coincident with its being put over Judge Van Nostrand received an anonymous letter signed with a skull and crossbones and threatening him if he did not quietly decide the issue

The receipt of this missive revealed the fact that Attorney Charles Lee, counsel for Shorb, had been threathalf-dozen sunilar blackhand mes-sages. DEAD IN HEAPS.

ZACATECAS, Mex., June 24 (delayed in transmission over military wires;— The flercest fighting on both sides and an unusually heavy loss of life to both Federals and Constitutionalists ended last night in the capture of Zacatecas by General Villa's forces. It required four days of battle to take the Federal stronghold to central Mexico.

The Federals under General Medina Barron defended their position stubbornly, but they finally were overcome by the forces of Generals Villa and

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent, or nearly one-quarter, die before they reach one year; thirtyseven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Dr. A. F. Peeler, of St. Louis, Mo , says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. Frederick D. Rogers, of Chicago, Ill., says: I have found Fletcher's Castoria very useful in the treatment of children's complaints.

Dr. William C. Bloomer, of Cleveland, Ohio, says: In my practice I am glad to recommend your Castoria, knowing it is perfectly harmless and always satisfactory.

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients." Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Cas-

toria in my own household with good results, and have advised several patients to use it for its mild lazative effect and freedom from harm." Dr. J. B. Ellictt, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend he use. The formula contains nothing deleterious

to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb, says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an

exception for conditions which arise in the care of children" Dr. J. A. Parker, of Kansas City, Mo., says. "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and chil-

Holds Brief Inquest Into Mysterious Death of Former-City Councilman.

STANFORD, Conn., June 25. - The inquiry into the mysterious death of Waldo R. Ballou, for which Mrs. Helen M. Angle, supposed to be his fiancee, is held without bonds, was begun by the coroner vesterday.

Ballou, a prominent citizen, and a former member of the city council, was found unconscious in the street not far from where Mrs. Angle lived, early today and died soon after being taken to a hospital.

The inquest was brief, being adjourned until today at the request of counsel for Mrs. Angle. According to evidence introduced by Dr. George Sherrill, the medical examiner, and Dr. Weaver of the hospital, death was due to a fracture of the skull. Bruises on the head, face and hands, also were found.

liands, also were found.

In response to a question by the coroner. Dr. Weaver said, however, the fatal wound "could have been caused by a bed siat or the bottom of a chair."

The police told of finding the body and the arrest of Mrs. Angle, at which point adjournment was taken. Mrs. Angle is expected to go on the stand today. She told the police that Ballou visited her in her apartments Tuesday night, but declared that she had nothing to do with his death

He stumbled downstairs while under the influence of liquor, she said. She heard the fall, found him apparently dead at the bottom of the stairs, and then, in order to avoid notiriety, carried him in her arms to the street.

Later, she declared, she got a cloth, en-deavored to wipe up the blood stains and threw Pallou's bloodstained hat into a clothes chest

THE HIGHER THE RENT, THE BIGGER THE WASTE

Wonder why a man renting an especially expensive store immediately resolves to go the limit wasting money on decorative fixtures and expensive outfittings? He probably doesn't realize it IS waste. Possibly he doesn't care. YOUR money is being wasted, not his.

THERE'S NO WASTING HERE

We pay the very lowest rents in the State in our three stores, at Oakland. Los Angeles and San Diego. If we paid more rent for our stores you would have to pay more money for clothes bought here. If we paid more rent we also would doubtless have marble columns, gilded chandeliers and magnificent plate glass show-cases, and the money for all these would be coming OUT OF YOUR POCKET.

In the end that would mean less customers for us, less Suits for us to sell and so we could have to pay more for the Suits. After all WE would be worse off, YOU would be worse off and the Foreman & Clark idea would be dead.

WE save money on Expenses. YOU save here on the Purchase you make. Every day in the year you have the same opportunity of saving \$10.00 here on the Suit you purchase. We realize this is a strong statement, but we make no statements we are not ready to prove. SOMEONE has certainly got to pay the high expenses—YOU'RE the "goat".

Peace in Sight, Perhaps.

The A. B. C. mediators, the United States representatives and the Huerta envoys to the Niagara Falls conference have signed a protocol which may be a forerunner of peace. By the terms of the document the provisional government decided upon two weeks ago shall be constituted by agreement between the delegates of the warring factions in Mexico and immediately apon selection the United States will recognize such provisional government. The United States will not claim any war indemnity or other international satisfaction, by which it may be inferred that the salute to the flag by Huerta is waived. The provisional government will proclaim absolute amnesty for political offenses on the part of foreigners during the period of civil war in Mexico, and will negotiate for the constitution of an international commission for the settlement of claims of foreigners on account of damages sustained. The three mediating governments agree to recognize the provisional government provided for.

So far so good. Now if Carranza will consent, everything is in a fair way for an amicable adjustment. It is understood that California's delegates and those of Huerra will Scient, of a.tempt to select, a provisional president and pending such selection no formal adjournment of the mediating conference will be

Meanwhile Villa having taken Zacatecas and the Carranzanistas having achieved a great measure of success of late, the delegates representing the rebel chief will doubtless insist on the בים שונים התחום מלה שיים ליים ליים ביים שונים ליים ביים שונים מיים שונים מיים שונים מיים שונים מיים שונים מיים שונים מיים שונים שוני

though the opposition is not expected to be intense, for Huerta has manifested a desire for settlement of late apparently more sincere than that of his opponent. This was but natural. however, as Carranza was gaining ground, while Huerta was losing. Carranza wanted to win through force of arms and make his own terms: of late Huerta has shown a disposition to hurry matters so that he can retire with some degree of honor, to "save his face," so to speak.

The general wish of nations and individuals will be that peace will follow quickly. It is time a settlement was had and the people of the war-torn nation returned to the better and more uplifting activities of peace. If an amicable result is obtained the South American mediators deserve commendation for their efforts. Without their good offices the United States could have done little save by force of arms.

Comes now the information, said to have been derived from an ancient Sumerian tablet, that it was not Adam who sinned. but Noah. That Noah was tempted by the water god and ate of the tree of knowledge and fell. While we rejoice that a burden has been lifted from the shoulders of Mother Eve, at the same time the statement that the water god was the cause of the fall coming as it does on the eve of a state-wide prohibition election looks like a campaign argument for the "wets."

Situation in Colorado.

From the Epworth League Alliance of Alameda County THE TRIBUNE has received two reports on the labor troubles in Colorado, one from the Ancient and Accepted Scottish Rite of Free Masonry and one from the Junior Order of United American Mechanics, both Denver hodies

The first is in the form of a resolution in which it is related that the trouble was due to the insurrection against the lawful authority by several thousand misguided and largely unnaturalized men led by agitators and professional trouble makers, mostly non-residents. It is asserted with emphasis that the killing of a boy, two women and eleven children, at first charged to the National Guard, was not the act of the state soldiery but the resuit of the conduct of the insurrectionists. That there never was any such occurrence as "The Ludlow Massacre," and that in-ALAS APARTICA TARANCE NOMEDICALLO DIRECTO DIE COMITAGO SOLUTORS at the risk of their lives rescued many from death.

The society "deplores, denounces and condemns the publication of the false and maliciously misleading statements" and while admitting some members of the National Guard may have made mistakes, declares the people of Colorado should erect a monument to those slain during the trouble. This resolution is signed by the committee, by the acting master of Delta Lodge of Perfection, by the Wise Master of Mackey Chapter, by the Commander of Denver Council and the Mastor Kadosh Consistory.

The Junior Order's report is more extensive. It reviews the catch and burn him. situation at length and claims the strikers engaged in the fighting with the troops used poisoned and explosive bullets, many made in Greece, used women and children as shields while advancing on the state soldiery, says the labor agitators were not workers, not miners and very few were residents of the state. The report commends the Governor and the National Guard and condemns the United Mine Workers, designating the acts during the trouble as treason.

This report was signed by members of a committee appointed to investigate the strike and was printed in the Congressional Record.

Threats in the Hopfield.

There are signs that a campaign of intimidation is to be waged to prevent hop pickers from going into the fields unless the men convicted of taking part in the nots of last summer are released, according to the Sacramento Union.

The men back of this movement might just as well understand that California is a state of law and order. No band of men under any title or without title will be permitted to say whether hops shall or shall not be picked.

The people of Yuba county do not intend that the men repensible for last year's disturbance shall repeat the perform- paintings. The mannie and alle and mining to proceed those who Mesire to work and to preserve law and order.

There is no disposition to defend the conditions that existed the hop fields last year. They were condemned in strong ins by officials investigators and newspaper men who were on mans. But that is a closed chapter. The conditions have Fremedicd, and there is little reason to doubt that they will be distillutaciony during the coming season.

MACDONOUGH

"Life for an actor-manager is not path of roses." observed William Hodge in the course of a players' symposium having to do with old-time actors who owned and managed their own com-panies. "Yet, there are times when they enjoy concessions that are not allowed others." Hodge will close his engagement at the Macdonough theater in "The Road to Happiness" tomorrow night.

"Frank Mayo used to tell an interesting story of how he became an actor-manager," Hodge went on. "Mayo lived in San Francisco and was betrothed to the young lady was fairly well-to-do, so Mayo conceived the idea of working his way to Portland as cook on a coasting steamer, where he planned to claim his prize and settle down to comfortable

At the present time, when dancing is such a fad, it is necessary for every woman and man who particiin this graceful exercise to keep the body free from the odor of perspiration. There is nothing obnoxious as to dance with a person and to suddenly realize that they are not clean. If a girl goes out in the afternoon and dances

A Cure for Bouncing.

The slinky walk came to us from Paris and from the same source we are instructed in the new way of holding the arms, straight at the sides with the palms parallel with the ground. This is the proper way, say the French fashion dictators, to display the new fashions which are deadedly. Further in order. To the tators, to display the new fashions which are decidedly Egyptian in origin. To the short, nervous womar who is inclined to hurry as she gets over the ground I warmly recommend this fashior of carrying the urms and hands. It seems immediately to make the step longer, steady the locomotion and to call a halt on any tendency to bounce.

Johnny has been going against hard game and winning, and this week he gave more evidence of his ability when he stopped Johnny Gallant, the tough Boston lightweight, in eight rounds.

If Joe can weather through the first few rounds he is liable to keep Johnny busy and the contest should prove a good one. It will be a toss up between them. Mandot he had a chance to meet Pal Brown at Superior, Wiss, July 4, but accepted the Dundee match instead.

DIAMOND : He's the Spine of the Tiger : JOHNNY EVERS ANSWERS QUERY: 'WHAT'S WRONG?'

Famous Player Says Sentiment is Fading 🔭 From Baseball

(By BILLY FITZ.)

Some time ago we said to Jack Cook, secretary of the Oakland club: "What's the matter with baseball?" We weren't referring to the Oakland club, but to the game in general, for virtually every one

game has observed an apparent slackening of interest in baseball. The attendance, particularly in the East, has fallen

off tramendously and here on the Coast.

"There is still another phase of it. Ball off tremendously, and here on the Coast, despite a high class of baseball and handsome new parks, the public support appears to be lessening.

Jack Cook blamed it on the weather. "Too cold and gloomy; no summer yet at all." Likewise Jack opined that locally

the poor showing made by the club had

We were inclined to believe that the O see the clever growing national crate for outdoor recreation and week-end trins—the automobile trip out of town on Sunuay-the

retation and week-end tring—the autoincohie trip out of town on Sunuay—the
increasing popularity of sports, such as
tennis and golf, where a man is a participant instead of a spectator, had something to do with the apathy.

Now along comes Johnny Evers, one of
the greatest little players in the game,
with an explanation that sounds quite
rational Evers was quoted in a Chicago
paper recently in the following very interesting fashion.

"It looks to me," said Evers, "as
though the public had begun to lose confidence in some of the old idols of baseball—not all of them, but some. For a
great many years now there have been
certain ball players before the public
who have been idolized for their skill on
the diamond. In every city there has
been at least one player whose career has
been watched by the loval rooters. Their been watched by the loyal rooters. Their names have become household words, they have been known by pet nicknames they have been known by pet nicknames and have been looked up to and revered. Maybe all this adulation has been fooltish but it has existed nevertheless. It's part of the game, this thing of having baseball heroes, and the box office receipts prove that the more heroes there are the bigger the financial returns "All heroes are supposed to conduct themselves along perfectly good heroic lines and when they fail it gives a terrible joit to the considence reposed in them. A pitcher who is a public idol may lose a close game and be forgiven promption. Unlike may take the beautiful to give a decent performance in an empty theater. The inspiration is not there, and it is not there when a crowd is not on hand to see a ball game. Let two watching them and the brand of ball you would see if the stands were filled with an enthusiastic crowd.

box and have it overlooked. The public is fickle regarding such thinges. But when baseball ideis commit breaches of a when baseball idels commit breaches of a different character there is a decided difference. It hurts the faithful fard deeply to think that some player who has helped to lift the favored team to a high place in the standing would jump to a rival organization just because he is offered a little more money. The public realizes that a player is no more than human, that he is arrives to make just as much money as he possibly can, but the pinch comes when this fact is put before them in a cool, matter-of-fact way. It destroys a lot of the thing called sentiment "It hasn't been the Federal League so much that has caused the trouble as it has the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the unpleasant features of baseball that the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the infinity is the unpleasant features of baseball that the is an infinity in the infinity is the unpleasant features of baseball that the is an infinity in the infinity is the unpleasant features of baseball that the is an infinity in the infinity in th
